PROFILE

I am an ambitious and passionate IT student at the University of Babylon, Faculty of Information Technology, Department of Networks (third year). I am highly motivated to learn and improve in the fields of Computer Networks, IoT, and Web Development (Front-End). I also enjoy photography, photo editing, and sports, and I always look forward to combining creativity with technology to build innovative solutions.

EDUCATION

- University of Babylon – College of Information Technology, Department of Networks (2023 – Present).
- Third-year student, recognized as a distinguished student.
- Attended various courses in Artificial Intelligence, Networking, and IT technologies.

WORK EXPERIENCE

- Developed small-scale IoT projects (e.g., remote automatic irrigation system).
- Built and designed web pages (front-end) using HTML, CSS, and basic JavaScript.
- Created and managed a clinic management system using Java.

ACHIEVEMENTS

- Successfully built an IoT-based irrigation system using ESP, sensors, and relays.
- Developed a clinic management system for patients and doctors using Java.
- Participated in multiple AI and networking courses to strengthen my technical background.
- Known for creativity and problem-solving, with interests in photography and Rubik's Cube solving.

LANGUAGES

Arabic	Native
English	Intermediate

SKILLS

Hard Skills :

- Networking fundamentals (Routing, Switching, Network Security).
- IoT Systems (ESP modules, sensors, automation).
- Web Development (HTML, CSS, JavaScript basics – Front-End).
- Photography & photo editing.

Professional Skills :

- Fast learning & analytical thinking.
- Problem-solving & creativity.
- Teamwork & effective communication.
- Attention to detail and reliability.
